July - September 2016

## The newsletter of the French Chamber committees:

# Intercommittee link

### **Do not hesitate to spread the word regarding the support offered by the BAG:**

A new format has been launched whereby BAG members commit to meet the candidates twice, after preparatory meetings if needed, so that meeting time be totally used to the benefit of the candidate, his project and the advisors.

Start-ups offering disruptive services/products will be offered a special package (open to members only).

Projects to be sent to [committees@fccihk.com](mailto:committees@fccihk.com), and then forwarded to the BAG.

Specific offer for SMEs with over 3 years of experience, as well.

Please contact us and forward the information to your contacts.

**Watches** are created on a regular basis for most committees: do not hesitate to check your committee webpage for more information on news, events, or indexes...

### **Gentle reminder:**

To ease committee meetings organization, it would be really appreciated that:

- ✦ Members **reply to meetings notices** either by registering to the meeting, or replying that they cannot make it,
- ✦ **Attend the said meetings when they have registered.**  
Meetings imply practical organization and invitation to speakers, and it is important that we know how many guests we shall welcome.

The editorial committee helps the Chamber to prepare its quarterly magazine, HongKongEcho.

HongKongEcho Autumn Issue

### THE GATEWAY TO IT ALL: Perspectives on supply chain and logistics

As one of Hong Kong's key pillar industries, supply chain and logistics is a topic that concerns us all. Of course, Hong Kong's geographical location has made it a natural hub for air and sea freight, and today it enjoys a robust logistics sector defined by world-class expertise and infrastructure.

The city has a long and largely successful history in these domains and our contributors looked to investigate the ways in which Hong Kong can continue to develop and grow as both an Asian, and global, logistics hub. Similarly, they have outlined some of the challenges that must be faced and how the city can safely map its path through some difficult times.
